

【AMICUS Partnership Proposal】

From Okinawa to the World, and to the Future of Okinawa

~As 'AMICUS Partners', Won't you join us in nurturing
the next generation?~

1. Our Mission: **Developing 'True Global Talent' to Lead Okinawa**

Okinawa AMICUS International provides an education that goes beyond mere language acquisition through English immersion.

- **Inquiry-Based Curriculum:** We cultivate problem-solving skills and critical thinking, equipping students with the resilience to thrive in an era where there are no single correct answers.
- **Diverse Identities:** Using English as a tool, we nurture children who possess “resilient strength” and cherish their own roots.

2. **「Circular Approach」 to Community Contribution with Your Company**

Children who study at AMICUS spread their wings after graduation, moving both within and outside the prefecture, and even abroad. However, what many of them share is a strong love for their hometown and a desire to “return to Okinawa someday to contribute.”

Having your company become our partner is not merely educational support.

It is an extremely valuable medium to long term investment in jointly nurturing, starting now, the highly skilled talent who will lead Okinawa's business and society in the future.

3. **Benefits of Partnership**

We will effectively promote your company's brand to education-minded parents, the local community, and future leaders.
